

# CREATE-YOUR-OWN CUBE

**Cube created by:**  
Kelsey W.

Cut along the outside edges of your Cube. Then, fold along the dotted lines, making sure that your typed information stays on the outside. Tape the sides together to make a cube.

fold

**Neil deGrasse Tyson**

fold

**Interesting facts**

Tyson has worked on the remake of Cosmos. He has also co-authored a series of Origins: Fourteen Billion Years of Cosmic Evolution. He has two children and is a fine-wine enthusiast!

**Personal Background**

October 5, 1958  
Manhattan, NY

**Significance**

Tyson is an astrophysicist and director of the Hayden Planetarium. He works to educate the public with talks and books on the cosmic perspective.

**Obstacles**

His professors encouraged him to look into other careers-- his doctorate was cancelled from the University of Texas.

fold

**Kelsey W.  
8th period**

I liked researching all the books he has written-- so far a lot!
